Overview

Innovation and Incubation center is established for fostering innovation by supporting and promoting technology based startups.

'The Center' will be actively involved in developing the paradigm of entrepreneurial mindset and developing an ecosystem of ideating, creating and commercializing the ventures at the JU or any other startups aligned to the core theme of 'The Center'. 'The Center' will be focused towards motivating and inculcating the spirit of Entrepreneurship and Intrapreneurship and further dedicated to promote ideas, research activities into social and business ventures and commercialization of these researches.

To provide a healthy ecosystem for ideas, startups and researches into successful entrepreneurial ventures, this session has been planned.

We aim to screen the projects for further patenting, incubation and technology development.
