Plan, Prepare, and Respond to Corona virus Disease 2019 (COVID-19)

Dear Students,

We understand this is a challenging time, especially with so many unknowns. Education changes the world. Your decision to study at home will help us to make India a better and more connected place. This is something to be proud of.

- We MUST strictly follow the national lockdown that our Hon'ble Prime Minister has announced to STAY at HOME to SAVE LIVES.
- We urge all members of our community at home and outside to practice prevention behaviors and hold each other accountable in following safe and healthy practices.
- Government websites are your best resource for the latest information.
- The university continues to send communications with important updates about corona virus. We urge our community members to read these communications.
- Notify all known individuals who came into direct contact with an affected individual.
- During this period we want you to spend more time in improving your academics.
- Digital services are available. A new resource on website (www.jiwaji.edu) is uploaded to keep you connected with guidance and strategies to complete your syllabus .
- Caring for the poor and needy people and helping them is a noble endeavour. Kindly support them in this difficult time.

Take medicines that elevate your immune system. Stay safe and healthy.

Best wishes

Prof. Sangeeta Shukla
