## **DEAR DELEGATES,**

On behalf of the organizing committee it is our pleasure to present you the announcement of National Conference on “Recent Trends in Environmental Sciences” scheduled to be held at SOS in Environment Science (IGAEERE), Jiwaji University, Gwalior, from February 4-5, 2014. This conference has been specially designed for scientists, academicians, research scholars, students, professionals, policy makers, NGO’s from all over India.

The conference will feature plenary lectures, invited lectures and contributed papers (Oral and Posters). So let us meet and provide a helping hand to make this National Conference successful.

## **JIWAJI UNIVERSITY, GWALIOR**

Jiwaji University, Gwalior came into existence on May 23, 1964. Late Dr. Sarvapalli Radhakrishnan, the then President of India, laid the foundation stone on 11th December 1964 at a sprawling campus of over 225 acres of land at Naulakha Parade ground. The motto of the university is embedded in its logo Vidyaya Prapyate Tejah.

## **ABOUT THE HOST DEPARTMENT**

The Indira Gandhi Academy of Environment Education, Research and Eco planning was established during 1988 by University Grants Commission. The Environmental Science Department (IGAEERE) has been established to incorporate and integrate the subject matters from a large number of disciplines. It embodies bulk of information pertaining to health education, medicine, life sciences, earth sciences, engineering, architecture, anthropology, history, culture, economics, ethics, psychology, etc. Courses in the Department are Post- Graduation, M.Phil. and Ph.D.

## **CONFERENCE PREAMBLE**

Environmental problems are classical issues which vary with stage of development and production technologies. At the present time rapid change in environment is crucial for living beings. The destruction of our environment is a great concern to the scientific communities. It is essential to understand the interaction between development, environmental problems and solution. Awareness in the field of environmental sciences is becoming a global talk.

The conference is useful for groups in the formal and non formal education sectors related to environmental awareness, ecological knowledge, attitudes, values, commitments for actions, and ethical responsibilities for the rational use of resources, conservation of environment and for sound and sustainable development.

The purpose for organizing the National Conference on Recent Trends in Environmental Science is to provide stage for dialogue and debate among all interested people to address significant issues related to environmental science. The conference also provides scope for discussion on conservation of environment, reducing the hazardous impact of pollutants on biota, sustainable development of energy resources and interaction of research opportunities to students and researchers interested in the area of environmental science.
