Dear Friends

Hope you will be happy and healthy. It is really a matter of great pride that our university is celebrating 50th year of its existence in 2014. Thus this year is Golden Jubilee year of our University. The university is organizing various academic, cultural and sports events to celebrate Golden jubilee year. Since our university came in to existence on 23rd May, it has been decided to have concluding programmes on 20, 21, 22 and on 23 of May, 2014.

The university cannot forget the contributions made by Alumini in the developments of this university. We are the ambassador of this university in our country well as in abroad. We are doing our best to contribute in the development of our country by spreading our knowledge all over the globe.

Since all of us are staying in different parts of this vast country so we hardly find time to interact with each other. To facilitate the mutual interaction and to know better each other, SOS Alumini association came in to existence in 2005. The first Alumini meet also took place in 2005 itself. After that due to our busy schedule the same could not be organized in past years. This year we have decided to have Second Alumini meet on 20th May, 2014 at Jiwaji University campus. Please make it a point to come to our university positively so that we can recall our old days and old memories. Please do come with your families so that our children can also have a look of our friends and of this green well developed campus.

I hope you will definitely make your plan to participate in this meet and not miss to be a part of Golden Jubilee celebration of our beloved University.

This time we all feel proud that one of our Alumini **Dr. Sangeeta Shukla, Zoology** is heading this university as **Vice Chancellor**.

Please do mail and call me for any quarry if needed. I will be happy to share our feelings with you. Please visit the University site: **Jiwaji.edu**, to have details about Alumini Association. I wish that all of us must be the member of this association. Kindly fill the membership form, if not yet registered.

Thanks

(Prof. A K Shrivastava)
