Librarianship as a career:

Production of recorded knowledge, have led to the expansion of libraries and the development of their services. A public library is an important element in the life of a community; an academic library is an essential part of an educational institution, school, college or university; a business or special library is indispensable in government departments and large business and industrial organizations. Librarianship is a growing field, which has by now attained the status of a separate discipline in the universe of knowledge. It presents challenges and interesting situations to library personnel. The management of these libraries needs persons with good academic and professional qualifications. Proficiency in one of the natural sciences, social sciences or the humanities is helpful in the professional Development of a librarian. Library work is primarily a social service, and therefore, needs young men and women with a sense of dedication and a spirit of service. Those intending to enter the library profession should satisfy themselves that they possess the necessary academic qualifications and the sense of vocation that would enable them to work successfully as librarians. Librarianship as a profession provides a variety of employment Opportunities. In
