

## SCHOOL OF STUDIES IN CHEMICAL SALES AND MARKETING MANAGEMENT

### Course Offered: M. Sc. - Industrial Chemistry Two year (Four Semester) course

#### Vision & Mission:

The course has been designed and started in 2003 to develop trained manpower for R&D, Q.C and production of Pharmaceuticals and Fine Chemical industries. Students have good scope in synthetic chemistry and analytical exposure in the industries.

**Available Seats :** 30

**Eligibility :** B.Sc. With Chemistry/ Industrial Chemistry with 50% marks.

**Mode of Selection :** On the basis of the merit in Index based on the qualifying examinations.

#### Teaching Methodology

Class Room Teaching	Industrial Training	Smart Classes	Seminars	Assignments	Practicals
---------------------	---------------------	---------------	----------	-------------	------------

#### Industrial training and Project

Course has compulsory industrial training as the integral part of curriculum so that at the end of the course students are familiar with working environment and technologies of related industries.

#### Instrumentation

Department is equipped with advanced microprocessor based instruments & equipment viz; UV-Visible Spectrophotometer, Gas Chromatograph, Nephelometer, Conductivity Meter, pH Meters, Refractometer, Tablet Hardness Tester, Friability Test Apparatus, Bulk Density Measurement, Dissolution Rate Apparatus etc.

**Contact Person Dr.Sanjay K.Srivastava, Professor and Coordinator**

**Mob: 94131773953**

#### Placements

Department has developed strong relations with industries all over India for mutual cooperation. It is encouraging that many industries in fine and Pharma sector are coming every year for placements of industrial chemistry students. The department is able to provide placement to the students more than 90 percent.
