**VII Semester**  
**Paper – II Criminology & Penology**

**Objectives of the course**

The course is designed to acquaint students with advances made by sociology and psychiatry in understanding human behaviour, particularly, deviant behaviour. In the past criminality was confined to acts of violence or unlawful acts of commission or omission. Thus the purpose behind criminality in the past was to do acts of revenge or to commit it for personal gain. The concept of crime has changed considerably in recent years. Unscrupulous members of society to indulge in anti-social behaviour with impunity have devised sophisticated methods. The perpetrators of crime include persons in high places, public officials, public and private enterprise against whom it is difficult to procure conviction under the traditional criminal law process due to abuse of power or power of the purse. Criminal gangs have come on the scene and indulge in offences such as smuggling, illegal trafficking in drugs and bootlegging. Communal and cast warfare has been a recurring phenomenon in recent times and the enormity of suffering of innocent persons has necessitated re-examination of our pre-conceived notions regarding the causes of crime and the methods used for its prevention and control. In view of the magnitude of the problem the existing machinery for control of crime, namely the police and the courts have come under severe criticism. Emphasis will be laid on understanding the weak and strong points of the existing system in order to determine whether it can meet the challenge and carry new burdens. Much has been said against capital punishment and imprisonment as methods of preventing and control of crime. Nevertheless these continue to be the backbone of the system in India. Several alternatives such as conditional release, parole and commutation of sentences have been suggested in this regard. The course shall dwell on these themes with a view to develop among students a greater understanding of social costs of crime and the effective ways of lessening them. Rehabilitation process is undoubtedly an important component of criminal justice system. The advances made in this respect in developed countries will be discussed to create awareness among the students of the problems in the context of Indian conditions.

The following syllabus prepared with this perspective will comprise about 84 units of one hour duration.
